

# Orçun ÇAKAR

STATISTICS STUDENT | DATA SCIENCE & MACHINE LEARNING

*Final-year Statistics student at Gazi University and Data Science Intern at Luminoris, working with Python and SQL on data preprocessing and machine learning. Focused on testing assumptions, validating models, and communicating findings clearly.*

**Location:**

Ankara, Türkiye

**Email:**

orcuncakar48@gmail.com

**Website:**

[orcuncakar.com](http://orcuncakar.com)

**[LinkedIn](#)**

**[GitHub](#)**

## EDUCATION

**B.Sc. in Statistics | 2023 – 2027 (Expected)**

*Gazi University*

Relevant Coursework: Regression Analysis, Mathematical Statistics, Optimization Techniques, Matrix Theory in Statistics, Time Series Analysis, Database Systems and Programming

GPA: 3.78 / 4.00

## EXPERIENCE

**Data Science Intern | Jun 2025 – Present**

*Luminoris, Ankara (Hybrid)*

- Preprocess data and develop machine learning models in Python, and prepare analytical reports
- Query and optimize relational databases using SQL
- Present model outputs and analysis results through web interfaces built with HTML/CSS

## PROJECTS

**Hantavirus Ecological Modeling | Personal Project, 2026**

*Python, Pandas, Random Forest*

- Analyzed a 33-year case series and environmental factors using a simulated Kaggle dataset
- Built a Random Forest model with lagged features; diagnosed and reported why it found no signal

**Personal Portfolio Website | [orcuncakar.com](http://orcuncakar.com)**

*HTML, CSS, JavaScript*

- Developed a bilingual (TR/EN) portfolio and blog site without external libraries
- Designed interactive in-browser simulators for OLS regression and the Central Limit Theorem

**NASA Space Daily**

*JavaScript, NASA Open API*

- Created a web app that asynchronously fetches and displays NASA's daily astronomy image

## TECHNICAL SKILLS

- **Programming:** Python, SQL, R
- **Python Libraries:** Pandas, NumPy, SciPy, scikit-learn, Matplotlib, Seaborn
- **Tools & Web:** SPSS, Excel, Git, HTML, CSS, JavaScript
- **Certifications:** Stanford Statistics · Complete SQL Bootcamp · Python A-Z: Data Science & ML
- **Languages:** Turkish (Native), English (Intermediate)
